OUR MISSION

The Copper River Information Technology (CRIT) mission is to be a leading provider of Telecommunications and Information Technology providing need-based solutions to federal and private-sector clients on time and within budget.

Copper River Information Technology, a Tribal 8(a) entity, provides Information Technology and telecommunications solutions worldwide. We specialize in marketing to the United States Federal Government, prime and subcontractors, as well as corporations and institutions. Utilizing our Strategic Partnerships and innovative and resourceful IT Solutions, we take customer satisfaction to a higher level.

CRIT offers vendor-neutral products and services, handles your project from inception to completion and offers post-project support.

TRIBAL 8(a) ADVANTAGES

Tribal 8(a) firms are entitled to unique privileges under applicable federal regulations. Among the benefits to customers of Tribal 8(a) firms are:

Tribal 8(a) firms are entitled to receive sole-source contracts of any value. Tribal firms are not subject to the \$3 million limitation on sole-source contracts applicable to other 8(a) entities. 13 C.F.R. 124, 123, 311(b)

Tribal 8(a) firms offer contracting officers and clients the ability to combine multiple vendor's equipment and/or services into an integrated design build, and maintain solutions in a single procurement.

Copper River Information Technology's 8(a) sole-source contract awards may not be protested. 13 C.F.R. 124.517(a)

When determining the size of a firm owned by a tribe the Small Business Administration considers only the size of the tribal subsidiary at issue. The parent entity or any other subsidiaries owned by that tribe or ANC are not affiliated.

FEDERAL PROCUREMENT SOLUTIONS

Copper River Information Technology offers high-quality solutions to federal customers. By providing a broad range of hardware, software, peripherals, accessories, networking and telephony equipment we can meet the needs of your agency.

Copper River Information Technology is owned by the Native Village of Eyak (Cordova, Alaska). CRIT's 8(a) status allows your agency the ability to secure direct Agency-CRIT contracts using the 8(a) Disadvantaged Business Program.

We provide your agency a rapid, low-cost procurement experience and an array of bundled solutions to accomplish your goals.
